06:00	09:00	12:00	15:00	18:00	21:00
Dull	Dull	Cloudy	Sunny intervals	Light rain	Heavy Rain
Precipitation probability					
20%	30%	20%	10%	10%	30%

Forecast for Thursday 24 Jun 2021

Weather: Generally overcast with periods of light rain or drizzle at first. Cloud will shroud peaks at times, although improving during the afternoon. The best of the brighter weather will be in the east, however the odd afternoon shower is also possible. Cloud and rain returning from the northeast during the evening and after dark.

Chance of cloud free mountain/hill tops above 800m: 20% through much of the morning. Improving to 70% during the afternoon, but falling again to 20% during the evening after dark.

Visibility: Best of the views through the afternoon, with drier weather and also across eastern parts, where distant hills will be visible. Visibility will be limited during morning drizzle, and very poor in low cloud. Hills above 300 metres are likely to be shrouded in the morning, and again after dusk.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Some fine weather likely, especially during the afternoon once early cloud and rain or drizzle lifts. Despite a cloudy start, there will be the chance of some brief but warm sunny spells later and appropriate protection recommended. Poor conditions returning towards midnight.

Forecast for Friday 25 Jun 2021

Weather: Overcast with occasional rain during the early hours and morning, perhaps locally heavy for a time, with low cloud covering the tops. Improving conditions are expected during the afternoon with cloud lifting and breaking, giving some good sunny spells, but also the chance of a few slow moving showers developing.

Maximum wind: Northwesterly 15 to 20 mph.

Chance of cloud free mountain/hill tops above 800m: 20% at first, improving to 80% during the afternoon

Visibility: Some good views likely through the afternoon, but limited through the morning with some poor visibility expected during any heavier rain and also on shrouded tops. Cloud will be obscuring hills above 400m at first, but gradually breaking and lifting above tops during the morning.

Temperature: **Valleys:** Plus 9 Celsius rising to Plus 19 Celsius
At 800m: Plus 7 Celsius
Freezing level: Above the summits
